

## Our Philosophy

We seek to provide inclusive and equitable quality education to all our students. At Sarthi Global we ensure that our students are equipped to face the challenges, to think critically, be creative, and to be problem solvers so as to enable them to adapt and excel in the novel and changing world scenario. The bedrock of our philosophy is to make learning experiential and holistic and most of all to promote the joy of learning. We work towards the development of the creative potential of each student through debates, discussions and harnessing their 'higher-order' cognitive capacities. We purport to develop into ethical, upright, caring, compassionate and contributing citizens for building a better and more beautiful world..

## ACADEMIC PROGRAMS

Sarthi Global Schools understands the significance of early childhood education. The formative years are crucial in forming life long concepts that helps a child acquire skills and knowledge in the latter learning stage.

## Our Vision

To see Sarthi Global School , in any corner of the world, identified by their virtue of empathy, excellence in their vocation, by their meaningful contribution to society and for their familial

camaraderie towards fellow sarthians. About

## Us

At Sarthi Global, we lay a strong emphasis basic skills and aim to tap and cater to individual needs of a student as we believe in the intrinsic uniqueness of each child as far as learning. abilities and talents are concerned.

We venerate tradition yet firmly believe that in order to equip students for more productive lives in the changing world; we need to devise a progressive and modern curriculum. School with wonderful teachers, the school is known for its academic excellence. Our students along with a strong academic program, we believe in the flame of consciousness alit in each kid and extent to which it can transform their life if kindled and nurtured. Our teachers are experienced and dedicated professionals who are committed to examining each child's personality with keen eyes and help them hone their full potential while showering the kids with love and compassion. Success is not a matter of luck, but planning and organization. Our parents are an integral part of this successful effort to push forward the envelope of holistic education. Consistent support and encouragement of parents result in greater

success for all students. We look forward to another successful school year. Please stay involved. We are here to help and support you in your schooling journey!

### **Why Choose Sarthi Global School?**

Traditions and culture are important because they help people feel connected to their heritage, community, and the world around them. We in Sarthi Global help children and toddlers to develop important character traits like empathy, compassion, and respect. We value Culture and traditions with Education

cause they help students understand their community, develop respect for others, and prepare them for the future.

### **Why Culture and traditions are important in Education system**

Understanding community

#### **1. Cultural rules**

Children learn cultural rules for behavior that help them understand their family and community.

#### **2. Respect for others**

Children learn the value of respecting others by staying connected to their family and elders.

3. \*Sense of belonging: Traditions help Students feel like they belong to a group.
4. \*Family connection: Traditions provide a time for families to interact and build trust.
5. \*Cultural identity: Traditions help students express their identity and keep their language alive.
6. \*Memories: Traditions create memories that students can share with their loved ones.
7. \*Comfort: Traditions can provide a sense of comfort and coziness.

The Impact of Culture on Education

**Culture is defined as the shared customs, religious views, and way of life of a community, citizens, or country. It comprises a set values and standards of a particular group of people.**

**Culture includes how we perceive the world, how we interpret our society, and how we converse with one another and act. As a result, culture has a strong impact on education, and its learning and teaching styles.**

*What role does culture play in a child's learning process?*

**\*Culture instils values, ideologies, and customs in students.**

**\*It has an effect on a child's interactions with parents, siblings, companions, and educators.**

**\*It has an impact on their verbal and nonverbal communication.**

### **Why is Play Group important ?**

This is a crucial time to develop their social skills along with their physical, emotional and intellectual development by engaging them in group activities that stimulate learning through all senses and whole body. In Sarthi Global prepare children with a strong foundation for life. Sarthi deliver the HighScope Curriculum that empowers and enables children to develop comprehensively, including Physical, Emotional, Intellectual and Social Development. The curriculum is designed to sharpen their language skills in writing, reading, speaking as well as thinking in a safe, secure and fun environment.

### **Why is Pre – Nursery is important ?**

PreNursery is important as it is the preparation to go to school and engage in formal education. It helps children in preparing for the school better, e.g. following a common routine, communicating in a large group, paying attention for a longer span, eating on their own, making friends, looking after their bodily needs, etc. They are introduced to basic concepts such as counting, alphabets, colours, body parts, festivals, their introduction etc.

### **How is the LKG and UKG important?**

The curriculum here is designed to sharpen children's language skills in writing, reading, speaking as well as thinking in a safe, secure and fun surroundings. The stimulating environment helps children learn things faster.

KG is the step before a child gets into formal schools, therefore it's critical that you as a parent choose a KG school that provides the appropriate foundation that generates interest in learning and creates a base in Mathematics, Language, Social & Creative skills for a smooth evolution in Learning Journey.
